

10th September 2020

Dear Parents and Carers

RE: COVID-19 INFORMATION AND UPDATES

We are delighted to welcome back our pupils who have adapted to new routines and settled back into their new classes well – your children have been amazing! New arrangements for lunchtimes and playtimes are working really well and both staff and children are enjoying running the Golden Mile each day.

I would also like to thank you as parents for your support of the school and that staff – we are all in this together and finding our way through. Nothing is forever in this world, not even our problems and we will come through together.

As we begin the first full week of the new academic year, I wanted to take the opportunity to share some important information with the school community. Keeping you up to date with the relevant information regarding Covid-19 is essential in these circumstances. I thank those parents who have contacted school to clarify procedures when necessary.

The Local Authority has provided all schools with a number of letter templates and other information to share with parents/carers. **These letters will only be shared in the following circumstances:**

1. **Warn and Inform Letter**: this explains that someone in the school community has tested positive for Covid-19, although your son/daughter **has not been identified as being in close contact**.
2. **Outbreak Letter**: If there have been two or more confirmed cases of Covid-19 in school, all parents/carers will be informed, although **pupils will only need to self-isolate if they are identified as a 'close contact'**.
3. **Close Contact of Confirmed Case Letter**: this letter explains that a parent/carer and/or a pupil has been a close contact of a confirmed case of Covid-19 and must self-isolate for 14 days.

As we work together as a school community, it is important that we only act on factual information.

If you are told or see on social media that there is a positive case in school, it may not be accurate information and **I respectfully ask parents/carers to wait for school to notify appropriate parents if this is the situation. We don't want to cause unnecessary or additional anxiety to other families.** It could be that a pupil is at home awaiting the results of another family member and, if the test is negative, would return to school the next day as long as they do not have any symptoms.

The symptoms of Covid-19 remain as:

- a high temperature,
- a new, continuous cough or
- a loss or change to your sense of smell or taste

When to self-isolate:

Pupils and parents/carers must self-isolate immediately if:

- They have any symptoms of coronavirus (**you are advised to get tested so that the correct procedures can be followed and Track and Trace can be initiated**).
- They have tested positive for coronavirus – this means they have received a positive Covid-19 test result.
- They live with someone who has symptoms or tested positive
- Someone in their support bubble has symptoms or tests positive
- They are told to self-isolate by NHS Test and Trace
- You arrive in the UK from a country with a high coronavirus risk – see GOV.UK: how to self-isolate when you travel to the UK

If a parent/carer and/or pupil think they have been in contact with someone who has tested positive for Covid-19, but **they do not have symptoms and have not been told to self-isolate**, continue to follow social distancing advice, but pupils CAN come to school.

When to get a test:

Get a test as soon as possible if **you or your son/daughter have any symptoms of coronavirus**.

Remember, the symptoms of Covid-19 are: a high temperature, a new, continuous cough and/or a loss or change to your sense of smell or taste

The test needs to be done in the first 5 days of having symptoms.

You do not need to get a test if you have no symptoms.

Please advise the school office, as soon as possible, the result of any Covid-19 tests carried out.

What to do if your child's coronavirus (COVID-19) test is negative:

You must inform the school office of this straight away. If your child's result is negative and they are free of the symptoms for 48 hours and no longer feel unwell, they can return to school as long as they are not isolating due to being a contact of another symptomatic household member or positive case. Household members can also end their isolation, unless someone else is awaiting results of a coronavirus (COVID-19) test.

What to do if your child's coronavirus (COVID-19) test is positive:

You must inform the school office of this straight away. This is so we can inform Halton Borough Council and next steps can be taken to protect others.

If your child attended school in the 48 hours prior to the onset of symptoms and up to the point of testing, we will work with HBC Public Health team and parents/carers to establish any contact that may have been made with others in the community, both in and out of school. Parents/carers may also be contacted by the NHS Test and Trace service.

Your child will need to self-isolate for at least 10 days until they feel better and their symptoms have gone. A cough or lack of taste and smell might last longer than 10 days, but your child can still return to school.

Your household and any other contacts must isolate for 14 days and watch for symptoms. If these appear then they will need to be tested.

Learning:

Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, such as quarantine or self-isolation, the school will provide access to remote learning. School staff will monitor engagement with this activity. This will be in a similar style to the home learning from the summer term. **If a pupil is absent because they are unwell (Covid-19 or any other illness), no learning at home will be provided.**

Communication Reminders

Ensuring we have open home/school communication is crucial to our management of Covid-19. Please ensure your contact information is up to date as several emails sent at the end of last week 'bounced back'. If you have any new contact details, please email the School Office on sec.stbasils@halton.gov.uk

Sending you and all your family our love and best wishes.

With kind regards

A.M. Sheppard

Headteacher
